

(TR-104) PYTHON WITH AI/ML

Training Day 4 Report:

Date: 15 January 2026

Topic Covered: Git Conflicts & Medium Blog Writing

The fourth day of training focused on understanding Git conflicts and learning how to handle merge conflicts efficiently.

- Git conflicts were explained as situations that occur when multiple changes conflict with each other during merging.
- Different methods for resolving merge conflicts were demonstrated, including manual editing and the use of Git commands.
- Best practices for avoiding conflicts, such as frequent commits and proper branching strategies, were discussed during the session.
- Information about Medium.com was introduced, including the process of creating and publishing blogs.
- A blog related to Git was created on Medium as part of the practical activity to improve technical writing and content publishing skills.
- **Published Blog Link:**
